## Symposium Topics

In the fields of meteorology, climatology and hydrology, all academic and practical subjects based on remote sensing, as well as remote sensing systems developed and being developed in these fields, can be presented at METEO IRS 2021.

## Application

The languages of the symposium will be English and Turkish. It is possible to attend the symposium with or without a paper. Participants who want to present a paper should send their abstracts on the symposium website until 30 September 2021, in accordance with the sample text they will obtain from the symposium website.

## Important Dates

Abstract Submission Deadline: 30 September 2021  
Notification of Acceptance (for abstracts): 15 October 2021  
Symposium Dates: 1-2 December 2021  
Full Paper Submission Deadline: 30 December 2021

## Registration

The fee for participation with presentation is 100 TL for Turkey and 50 EURO for other countries. 50% discount will be applied for student. Participation as a listener is free of charge.

## Acceptance and Submissions

Papers presented to the symposium will be classified under different session titles. Sessions will be held online, and participants will be given 20 minutes for each session to present their papers. In addition, at the beginning of each session, there will be invited papers. Those who want to make a comprehensive presentation on symposium issues can also present their situation and justifications to the Symposium Organizing Committee.
